Letter No 2781/53-E-8 dated 23rd March 1948 from Director, Southern Circle, Survey of India,22, Richmond Road, Bangalore, to the Chairman, City Improvement Trust Board, Mysore

---

Subject - Air Photography of Mysore City & Environs

---

1 With reference to your letter No D2 PR-61/47-48 dated 17/18th March 1948, I have the honour to inform you that the rates of air photography quoted in my No 1471/53-E-7 dated 22nd January 1948 have since been revised New rates for photography are firm and show a considerable reduction on the old rates Reduced Rates for printing, mosaic etc , still await final govt approval, but there is no reason to anticipate amendment

2 The marked map enclosed to your letter under reference shows an area of 62 sq miles to be photographed, on scale 7-inches to 1 mile I presume that it unlikely that the City will extend to the whole of this area in the near future and therefore suggest that we arrange to get the whole area photographed on scale 7 inches to 1 mile and supply you the first instance, two sets of air photographs and one set of air photo mosaic of the entire area, on scale 7-inches to 1 mile Subsequently, if you will please let us know the specific areas ear-marked for expansion, we can arrange to supply you for such areas one set of photo enlargements and one set of photo mosaic on scale 16-inches to 1 mile to enable you to carry out the preliminary planning of the town

3 With the above in view and based on the revised rates I give below the estimated cost of photography and supply of prints, etc -

a) Cost of air photography on scale 7-inches to 1 mile of an area of 62 sq miles and supply of 2 sets of air photographs on scale 7-inches to 1 mile (inclusive of the cost of moving the aircraft from its base to Mysore)	Rs 4,900
b) Cost of preparation and supply of 1 set of air photo mosaic of an area of 62 sq miles, mounted on 4 masonite boards of size about 2½ ft x 2½', on scale 7-inches to 1 mile	900
c) Cost of preparation and supply of 1 set of photo enlargements, on scale 16-inches to 1 mile, per square mile	23-
d) Cost of preparation and supply of 1 set of photo mosaic, on scale 16-inches to 1 mile, per square mile	81
	5,904

I expect an aircraft to arrive at Bangalore by tomorrow to carry out the photography of jobs already accepted by the various indentors in South India Will you please therefore confirm your acceptance of the cost quoted in para 3 above immediately by telegram, so that I can arrange to include Mysore City and Environs in the photographic programme of this aircraft before it returns from Bangalore
